Two former colleagues recognized the opportunity for an innovative approach to healthcare staffing in Arizona, Kyle Silk, with nine years in the employment industry, and Christopher Bollinger, with 10 years in business management and financial consulting, converged to launch Concentric Personnel Solutions Inc. in 2003. Synergistically combining the diversity of their business acumen and industry experience, Bollinger and Silk are progressively leading this thriving company that has achieved astounding growth and captured significant market share since the company's inception. Concentric Personnel specializes in healthcare employment with emphasis in psychiatric, nursing, pharmacy, and respiratory staffing. To accommodate their clients' dynamic needs, Concentric Personnel offers registry services to provide staff on a 24/7 basis. Many clients choose to enhance their recruiting process by taking advantage of the temporary, temp-to-hire, and direct placement service offerings. Concentric Personnel exhibits a passion for partnering with clients to become an integral part of their staffing solution. Clients have observed that key elements to Concentric Personnel's remarkable success include actively listening to their clients' need for continuity of care; providing qualified and thoroughly screened candidates; and providing a timely response to the employment of their staff and their client partners. Locally owned and managed, Concentric Personnel is in tune with the emerging trends in the healthcare industry of Arizona and the related staffing implications.
