Year Est: 2003

Principals: Kyle Silk, Chris Bollinger

Two former colleagues recognized the opportunity for an innovative approach to health care staffing in Arizona. Kyle Silk and Christopher Bollinger converged to launch Concentric Healthcare Solutions in 2003. Synergistically combining the diversity of their business acumen and industry experience, Bollinger and Silk are progressively leading this thriving company that has achieved astounding growth and captured significant market share since the company's inception. In 2005, Concentric Healthcare achieved another milestone when it became the first Arizona-based health care staffing company to earn the Joint Commission's Gold Seal of Approval. This certification further solidifies Concentric Healthcare's position in the health care staffing industry. To accommodate its clients' dynamic needs, Concentric Healthcare offers medical staffing services to provide staff on a 24/7 basis. Many clients choose to enhance their recruiting process by taking advantage of the temporary, temp-to-hire and direct-placement service offerings. Concentric Healthcare exhibits a passion for partnering with clients to become an integral part of their staffing solution. Clients observe that key elements to Concentric Healthcare's remarkable success include actively listening to their need for continuity of care, providing qualified and thoroughly screened candidates and providing a timely response to the employment needs of their staff and their client partners.
